Welcome to FIUBER!

FIUBER is a new Android app that makes hiring a private driver easy, convenient and inexpensive. With FIUBER, you can hire a private driver to pick you up and take you to your destination, or become your own boss while driving other people in your same own city.

To start using FIUBER as a passenger or driver, you must first install our app. Once that is done, you will be able to launch FIUBER from your Android phone. Getting started with FIUBER is really simple! In this guide, we will show you everything you can do with FIUBER as a passenger or a driver, from logging in to asking for and taking trips and more.

Logging in

After FIUBER opens, you will be welcomed within the log in screen.

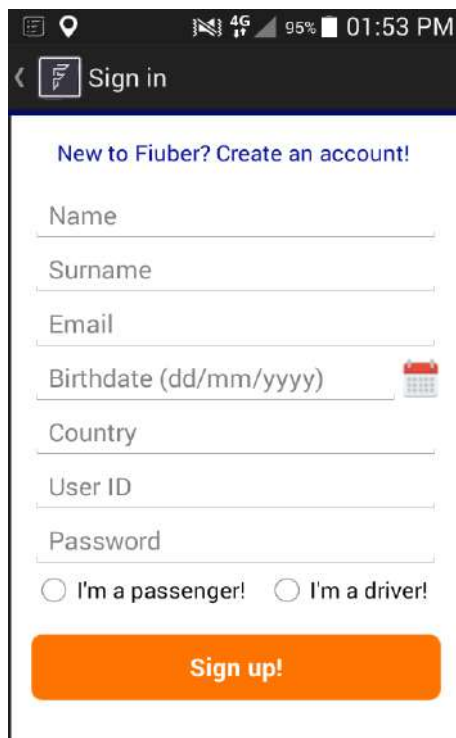

As you can see, you can log in either using your Facebook account or your FIUBER account.

Signing up into FIUBER

If you have no Facebook nor FIUBER account, you must create your own FIUBER account.

Pressing the “Sign in” button in the log in screen will take you to the sign in screen. Here, you can fill your registration data and choose a user ID and a password for your account.

☐ I'm a passenger! ☐ I'm a driver!

Sign up!

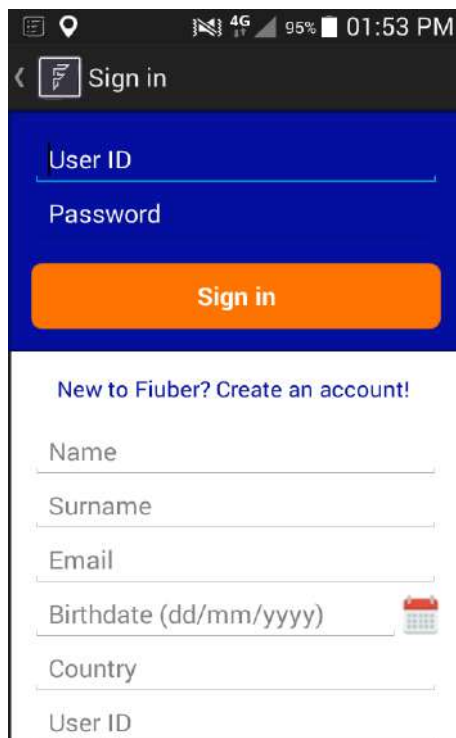

Once all fields are filled, you will have to choose if you want to be a passenger or a driver for FIUBER. After that, press the “Sign up!” button. If something went wrong (for instance, if your user ID is already taken by another user), FIUBER app will tell you so you can change the involved fields.

The image shows a mobile app interface for signing in. At the top, there's a status bar with icons for signal, 4G, and 95% battery, and the time 01:53 PM. Below that is a header with a back arrow, a FIUBER logo, and the text "Sign in". The main content area has a link "New to Fiuber? Create an account!". Below this are several input fields: "Name", "Surname", "Email", "Birthdate (dd/mm/yyyy)" with a calendar icon, "Country", "User ID", and "Password". At the bottom, there are two radio buttons: "I'm a passenger!" and "I'm a driver!". A large orange button with a red border and the text "Sign up!" is positioned below the radio buttons.

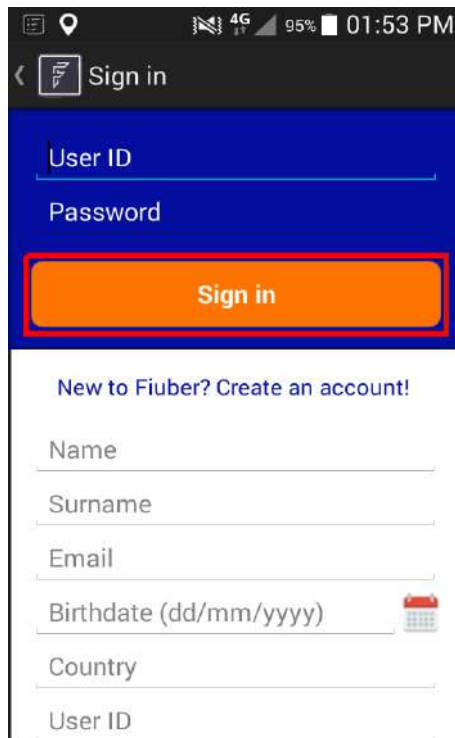

Logging in with your FIUBER account

If you have a FIUBER account and want to log in using it, simply write your user ID and password in the sign in screen.

The screenshot shows the Fiuber app interface. At the top, the status bar displays a location icon, 4G LTE signal, 95% battery, and the time 01:53 PM. Below the status bar is a dark header with a back arrow, the Fiuber logo, and the text "Sign in". The main content area has a blue background. It features two input fields: "User ID" and "Password". Below these is a large orange button labeled "Sign in". Underneath the button is a white box containing the text "New to Fiuber? Create an account!". This box also contains several input fields: "Name", "Surname", "Email", "Birthdate (dd/mm/yyyy)" (with a calendar icon), "Country", and "User ID".

After that, press the “Sign in” button for starting the app.

Logging in with Facebook account

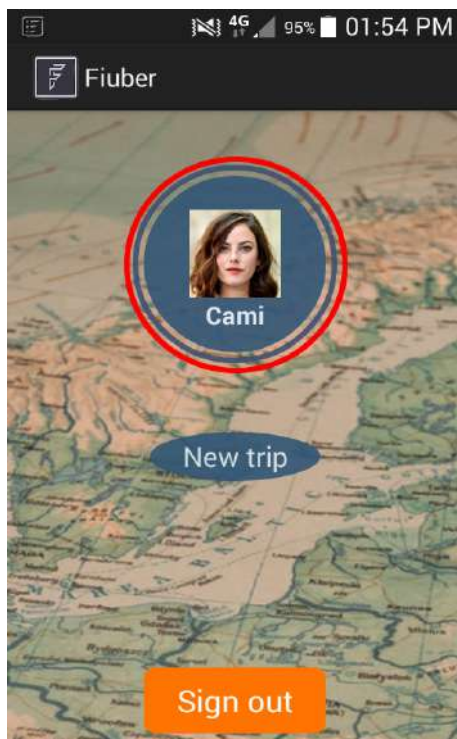

If you already have a Facebook account, you can log in into FIUBER via the log in screen, without needing to create a FIUBER account.

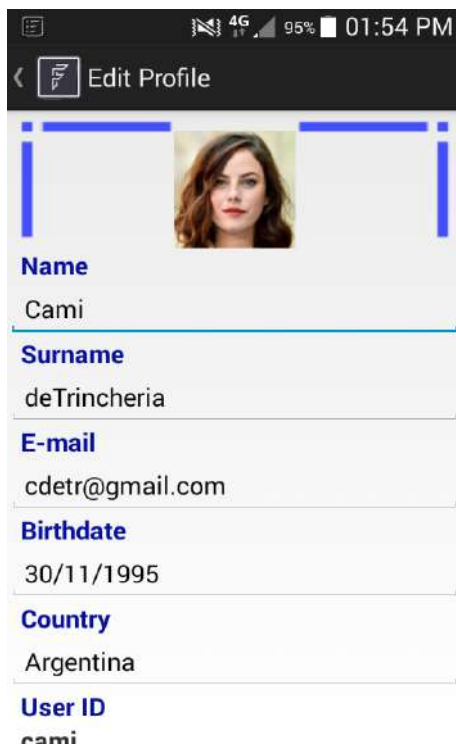

Simply pressing the “Log in with Facebook” button will start the app.

Editing your profile

On the app main menu, you can press your own picture for going into the edit profile screen.

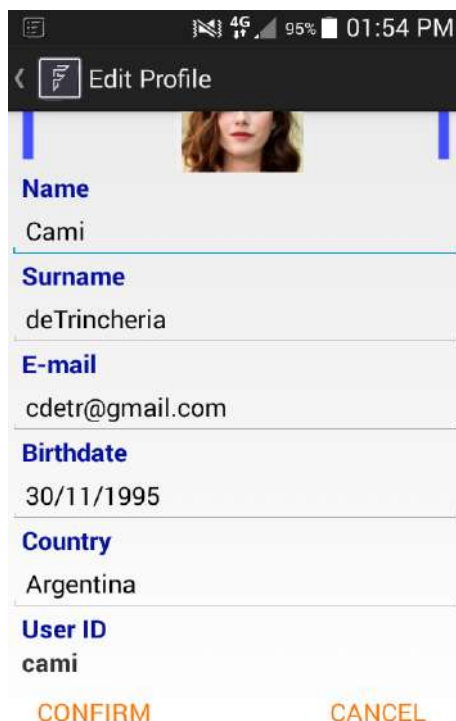

Once there, you can scroll down the screen and edit your own personal data. Selecting “cancel” will revert all changes done, and pressing “confirm” will save them.

The screenshot shows the 'Edit Profile' screen of the FIUBER app. At the top, there is a status bar with icons for signal, 4G, 95% battery, and the time 01:54 PM. Below the status bar is a navigation bar with a back arrow and the title 'Edit Profile'. The main content area contains a profile picture of a woman with brown hair. Below the picture are several input fields for personal information:

- Name**: Cami
- Surname**: deTrincheria
- E-mail**: cdetr@gmail.com
- Birthdate**: 30/11/1995
- Country**: Argentina
- User ID**: cami

CONFIRM **CANCEL**

Car registry (drivers only)

If you created your own account as a FIUBER driver, there will be one more option of “my cars” on the edit profile screen.

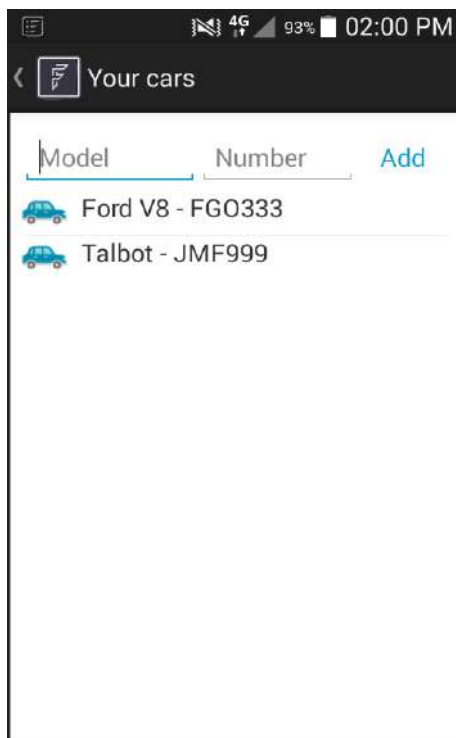

The screenshot shows the 'Edit Profile' screen of the FIUBER app. At the top, there is a status bar with 4G signal, 93% battery, and the time 02:00 PM. Below the status bar is a navigation bar with a back arrow and the title 'Edit Profile'. The profile information is displayed in a list format with the following fields:

- Name**: Juan
- Surname**: Fangio
- E-mail**: juanfa@hotmail.com
- Birthdate**: 24/06/1911
- Country**: Argentina
- User ID**: juanfango

At the bottom of the screen, there are three buttons: 'CONFIRM', 'MY CARS' (highlighted with a red box), and 'CANCEL'.

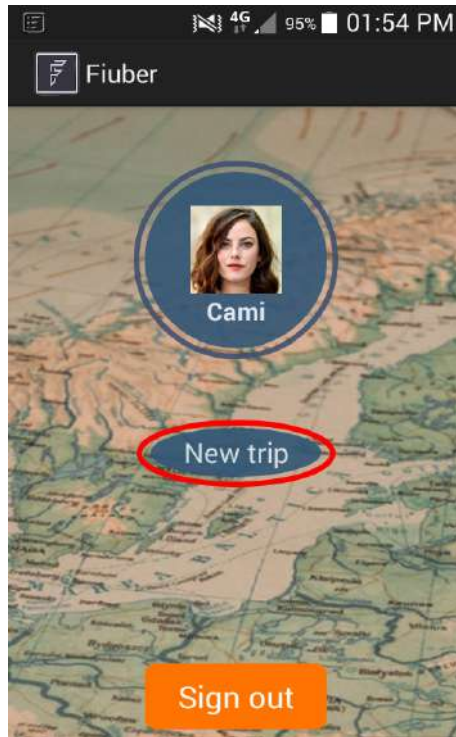

By pressing it, you will be taken to your cars screen, where you can register your cars on our system, update or delete their information.

Note that, for accepting any passenger trip, you need to register at least one car first.

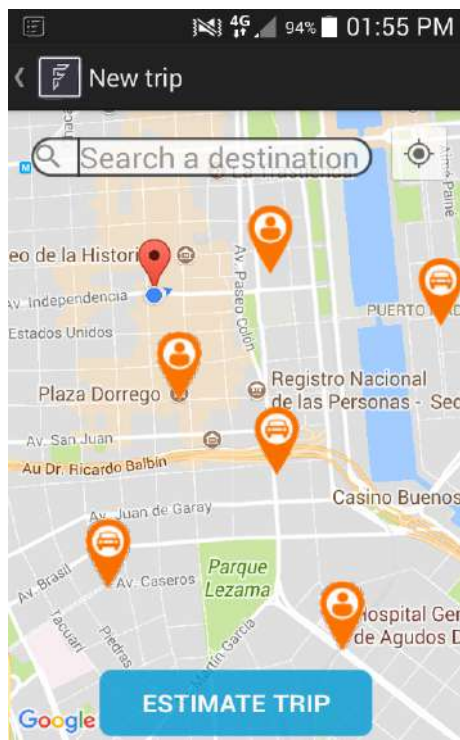

Travelling with FIUBER

Once a passenger has created an account, they can start asking for trips. For that, they have to press the "New trip" button on the main menu screen. Please note that you need to keep your GPS on at all times while using the app.

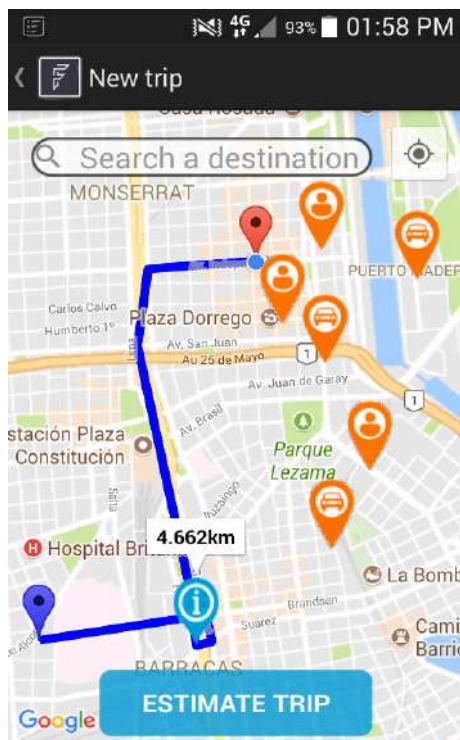

FIUBER map view

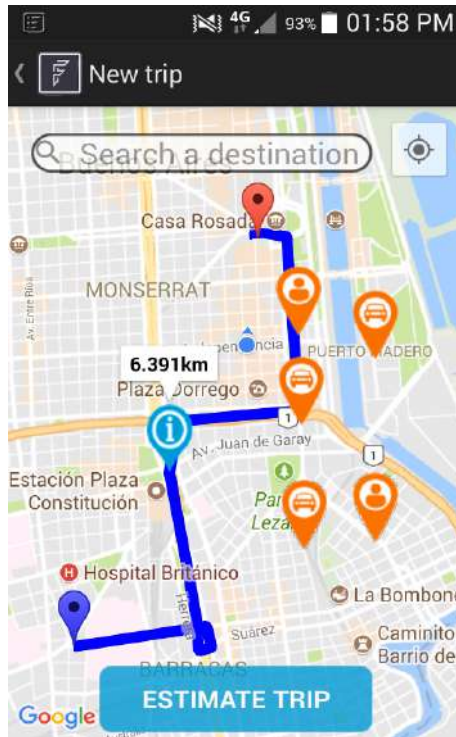

In the new trip screen, you will be able to see the location of all other users of the app, so you can know if any of them is near.

By touching anywhere on the map, you will be able to add a destination marker on that place. A trip's path will be created from your location to that of your placed marker.

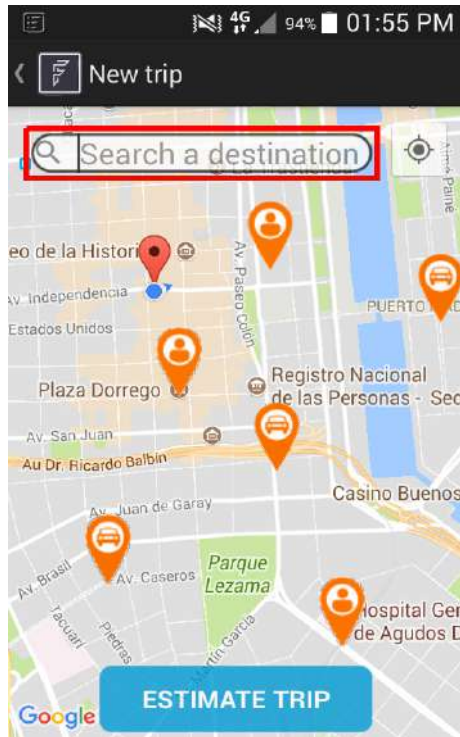

You can also drag your destination and origin markers, easily changing the trip's path.

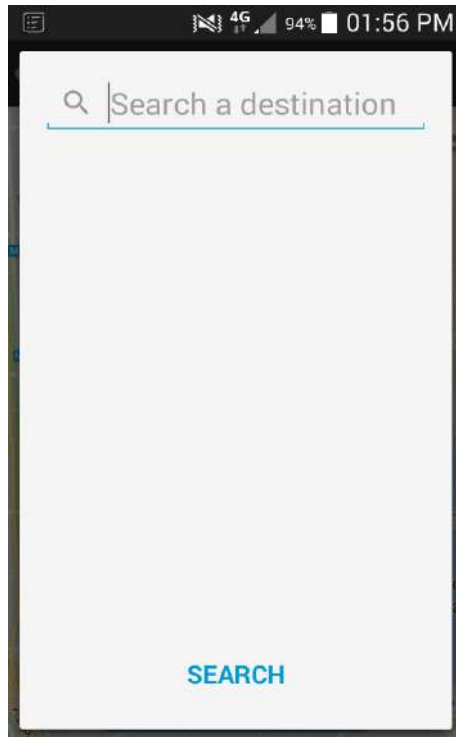

Searching destinations

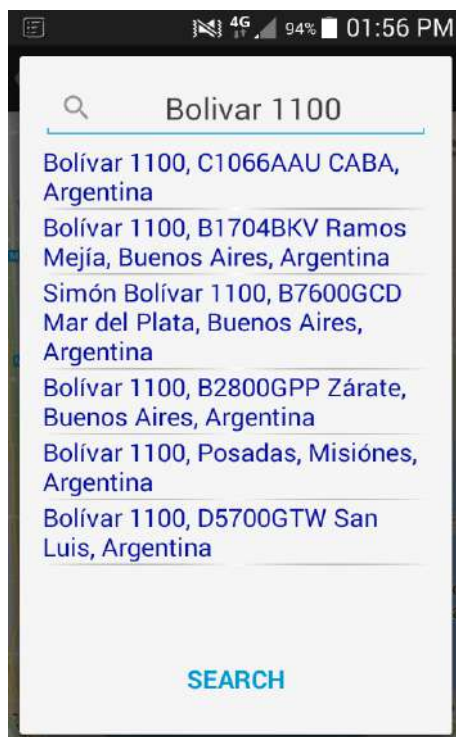

Aside from choosing your destination manually, you can also search for it in the “Search a destination” top searchbox.

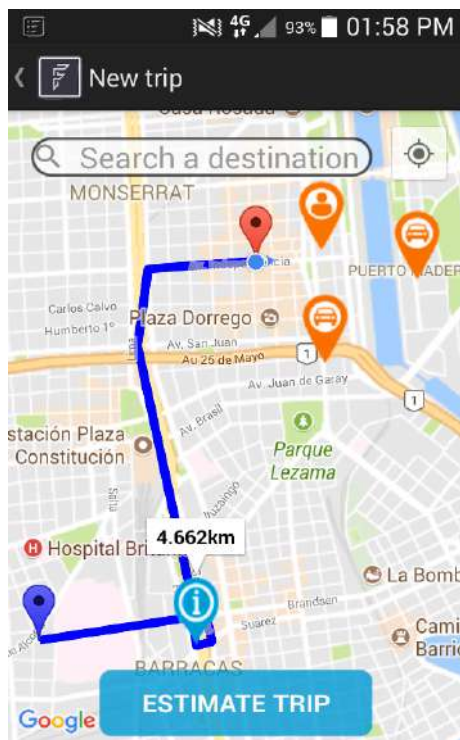

Once you press there, an empty list will pop up and you will be able to write any address and search for it.

After pressing the “search” button, a list of possible places matching your location will show up.

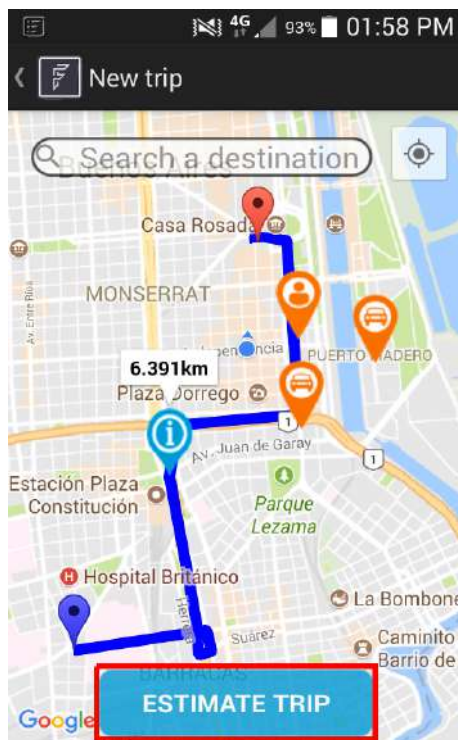

By choosing one of those locations, the destination marker will automatically be added into the map.

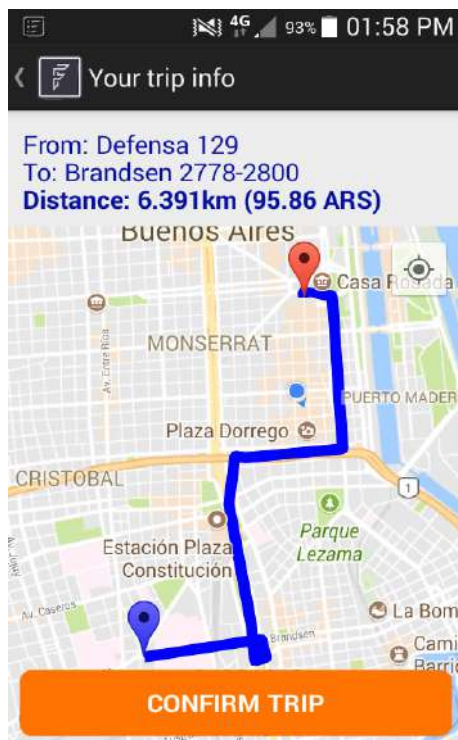

Trip estimation

When you are sure about your trip, you can select “estimate trip” to see how much it will cost.

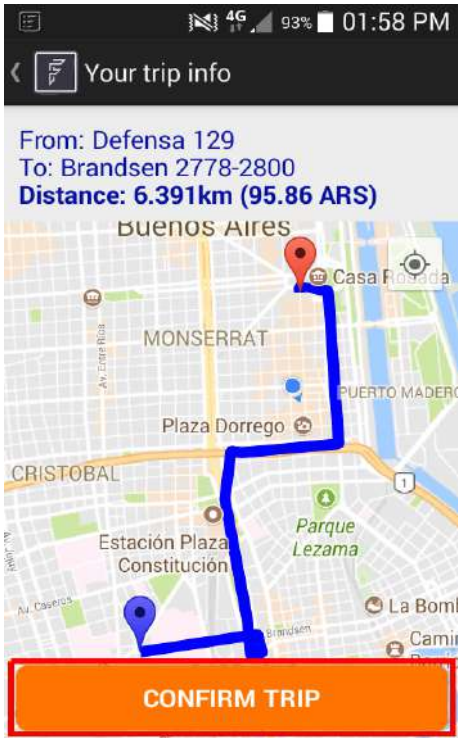

The trip info screen will show a little summary about your trip. Beware your trip has not been confirmed yet! You can still press back button and everything will be cancelled. Also, notice your trip's cost is just estimative: in FIUBER, we charge you with the real distance you have travelled.

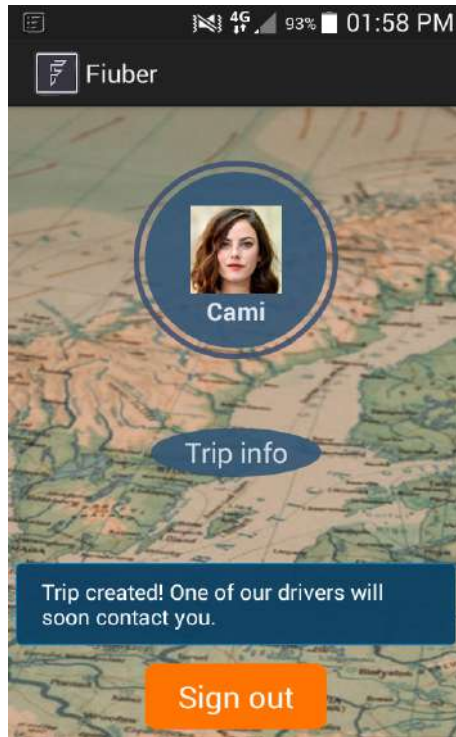

Confirming trip

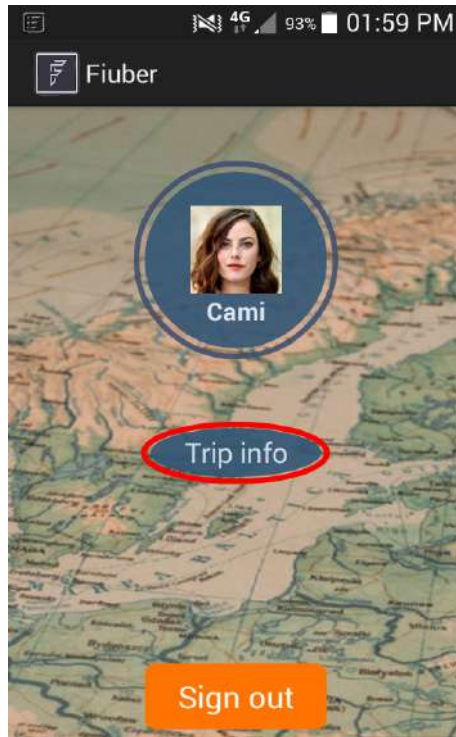

For confirming your trip, simply press the “confirm trip” button.

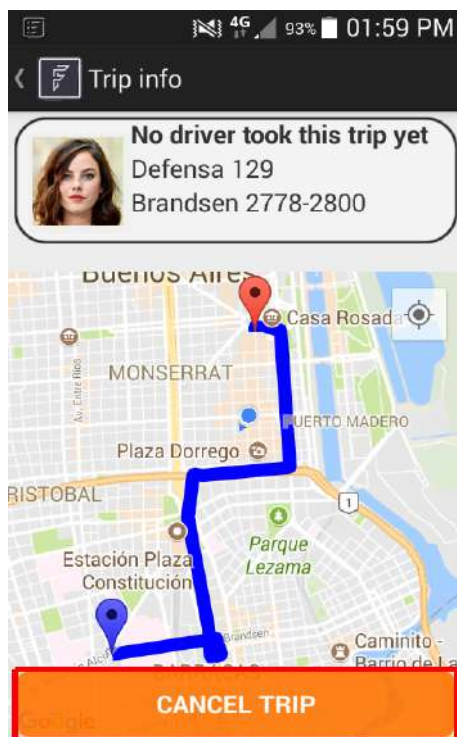

After that, you will be taken back to the main menu screen. A message will show up, telling you to wait one of FIUBER's drivers to contact you.

If you changed your mind and want to cancel the trip, you can still do it by selecting “Trip info” on the main menu.

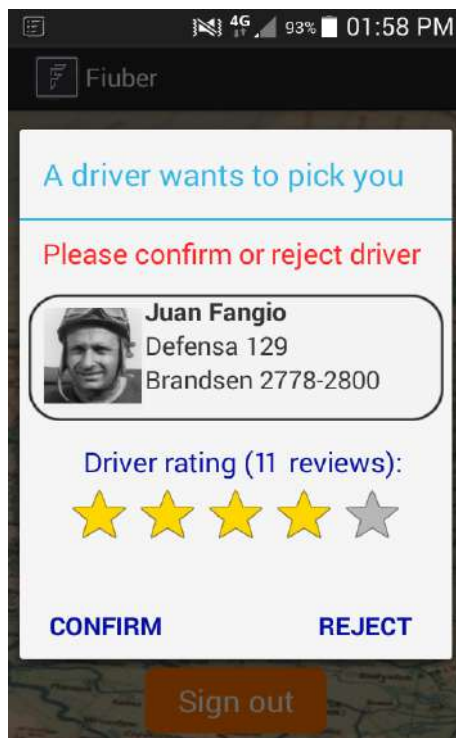

Again, a summary of your trip information will appear on screen. By pressing “cancel trip”, you can cancel your current trip,

Confirming driver

You will receive a FIUBER notification after one of our drivers has accepted your trip.

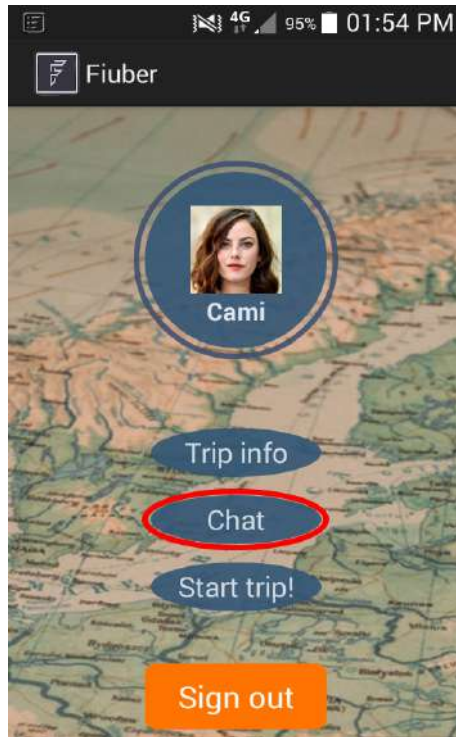

On the app main menu, the driver information and rating will appear, and you will be given the chance of confirming or rejecting your driver.

Rejecting your driver will NOT cancel your trip proposal. Instead, you will be returned to main menu screen as before, and another driver will contact you.

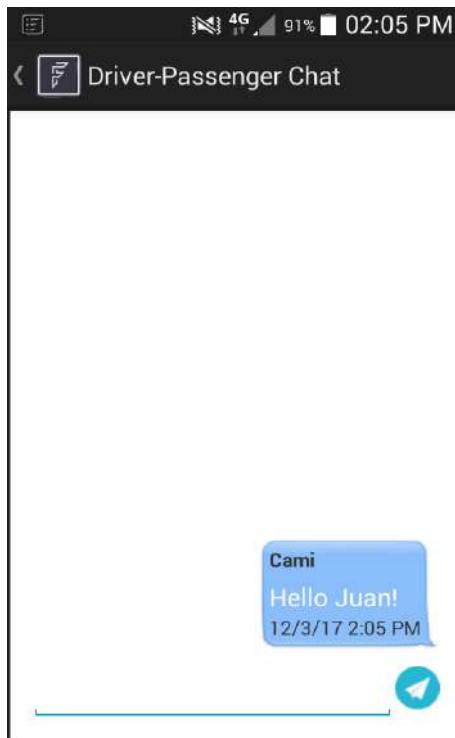

Driver-passenger chat

By confirming the driver, he or she will be notified to pick you at the location you designated. In order to ease your rendezvous, FIUBER allows you to chat with your driver.

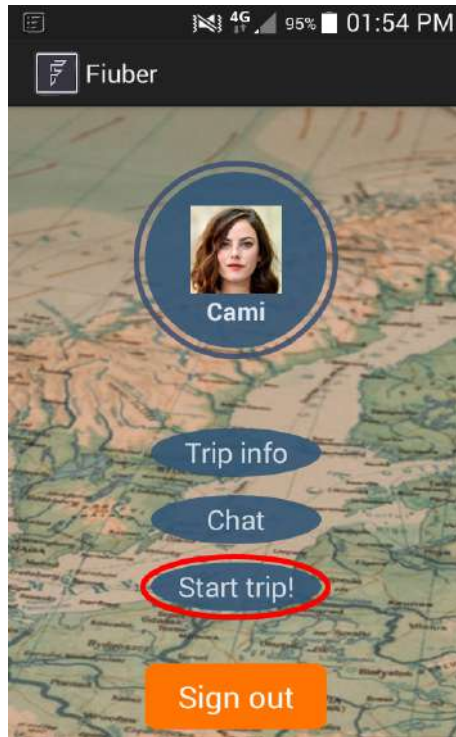

On the app main menu, pressing the “Chat” button will take you to the driver-passenger chat screen.

You can write and send messages to your driver as long as your trip lasts.

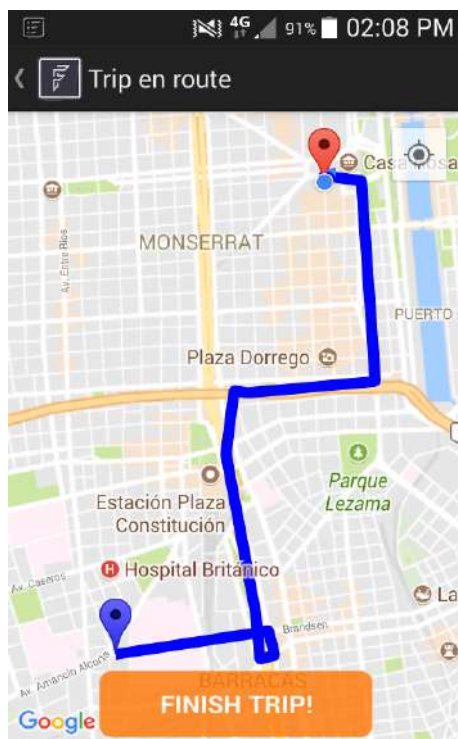

Starting your trip

FIUBER fairness system requires for both you and your driver to start your trip from the main menu. Once you get inside our driver's car, you must press the "Start trip!" button in the main menu for the trip to start.

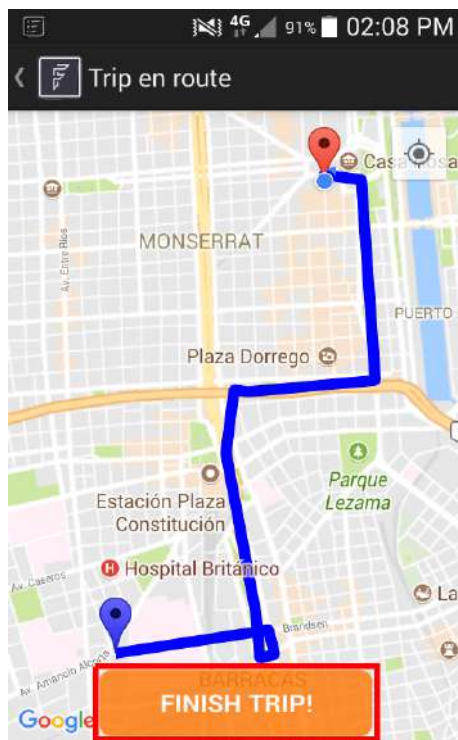

With the trip started, our driver will take you to your picked destination. By choosing “My trip” on main menu, you can check your trip’s path and your current location.

Finishing your trip

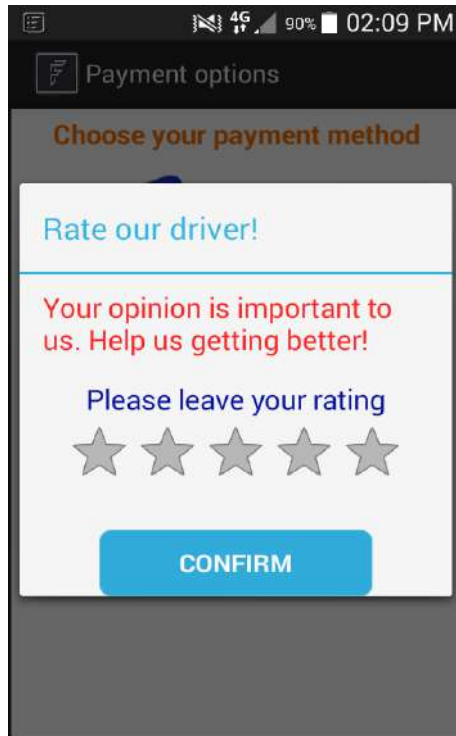

When you arrived at your desired location, you and your driver must finish your trip the same way you started it.

On your trip screen, select “finish trip” for ending your trip with FIUBER.

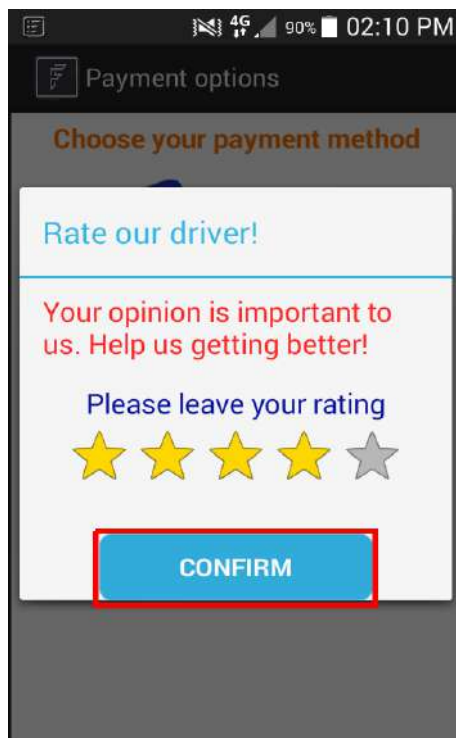

Driver rating

Your opinion matters for us. After finishing your trip, FIUBER will ask you to rate our driver.

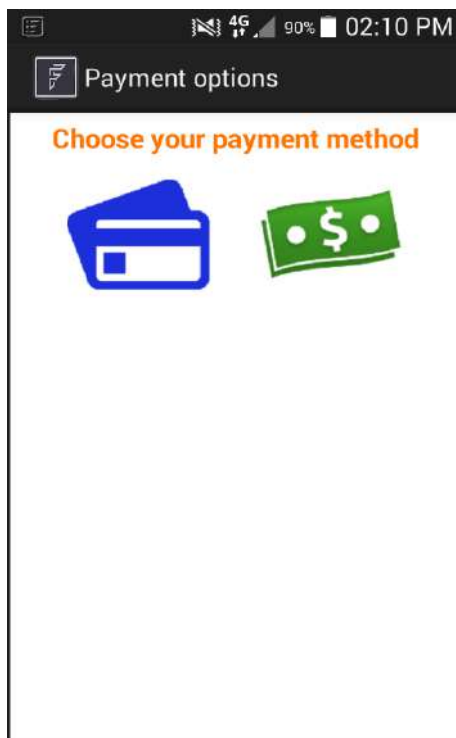

When you are done choosing your rating, you can press “confirm” for giving your review to our driver.

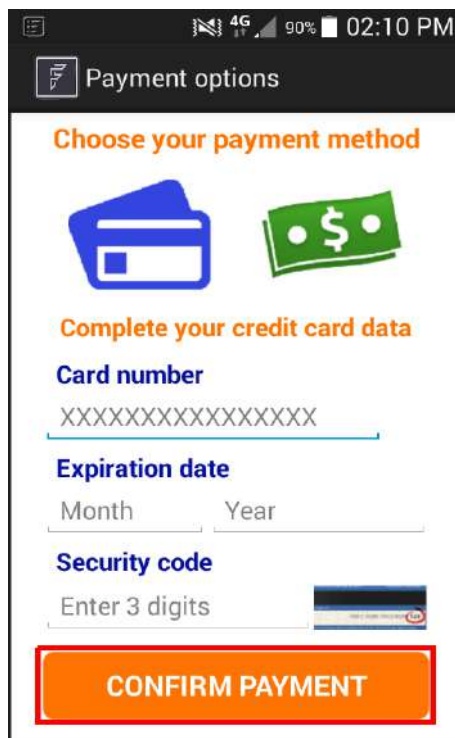

Paying options

FIUBER will ask you if you wish to pay with credit card or cash.

If you choose to pay in cash, you will have to give your money to our driver. If you either choose to pay with credit card, you will have to complete your credit card data and press "confirm payment".

Driving for FIUBER

If you want to work as one of our drivers, you must first create a FIUBER driver account as already shown. Also, you must have at least one car registered in our system for being able to accept trips. Keep in mind that, as a driver, your GPS must remain turned on at all times while using the app.

Map view

By choosing “View map” on the app main menu, you will be able to see the location of all other users of the app, so you can know if they are near.

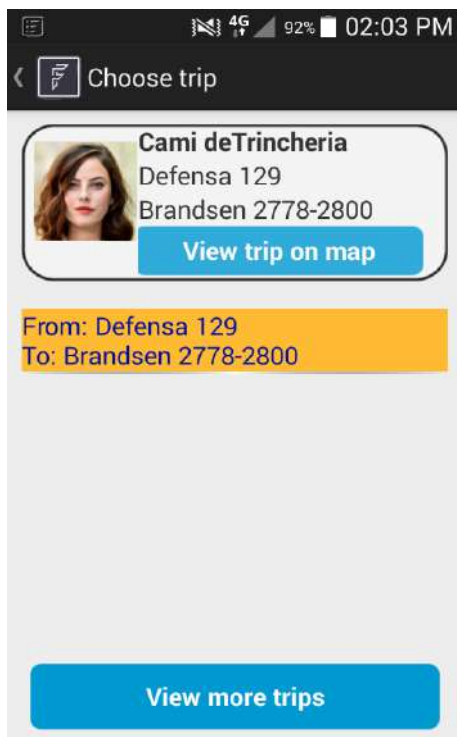

Finding trips

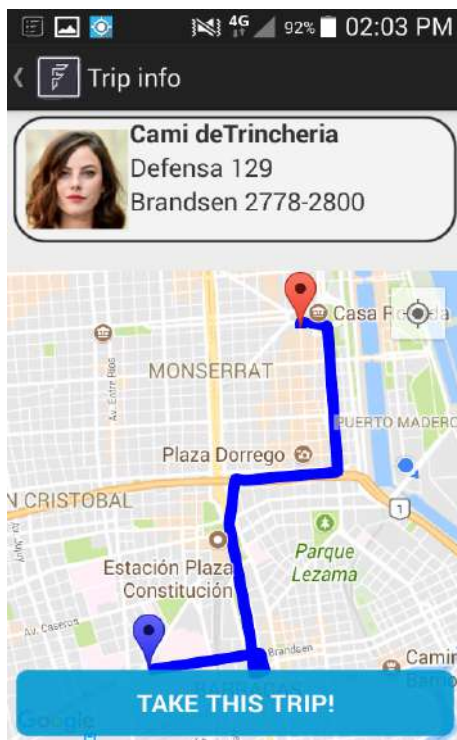

Pressing the “Find trips” button will show you a list of possible trips for you to accept, sorted by location.

If you select a trip from the list, you will see a little summary of that trip and the passenger asking for it.

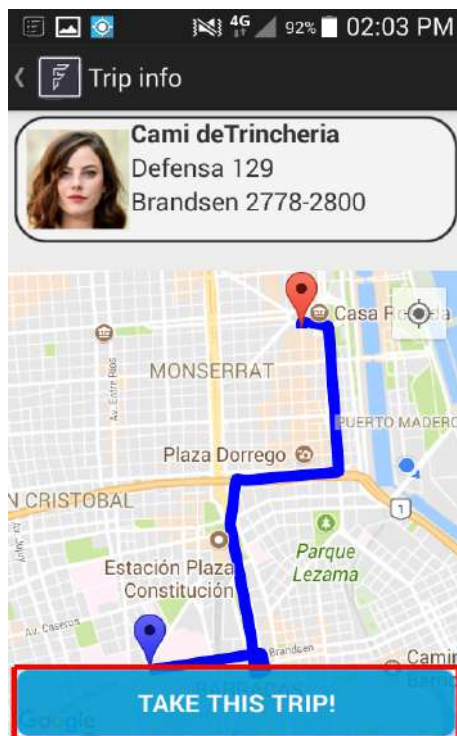

Pressing the “view trip on map” button will make you see that trip in detail.

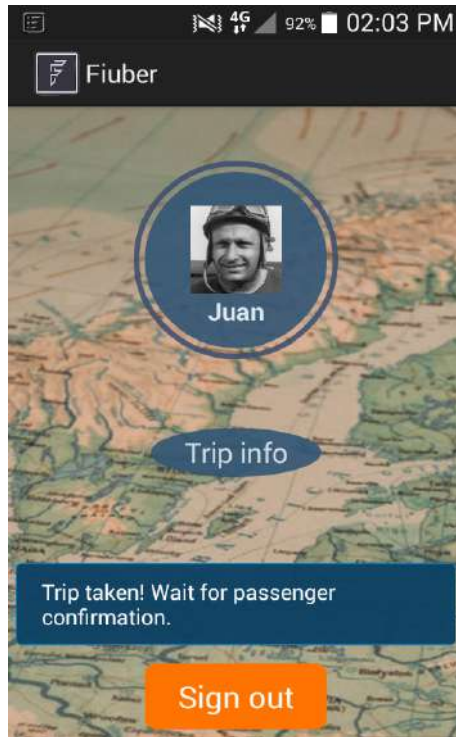

Confirming a trip

When viewing a trip in detail, you can select “take this trip” if you want to take it.

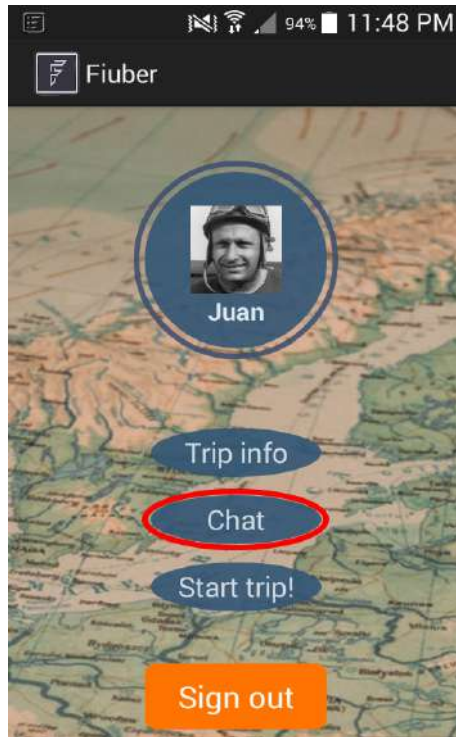

After that, a FIUBER notification will be sent to the passenger in order to accept or reject you as their driver. A notification will be sent to you after he or she decides it.

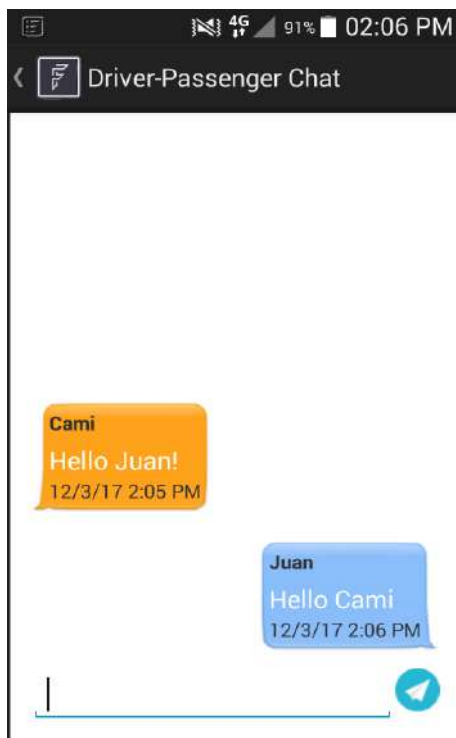

Driver-passenger chat

If your passenger confirms you as driver, you will be notified to pick them at their designated location. In order to ease your rendezvous, FIUBER provides you with a chat with your passenger.

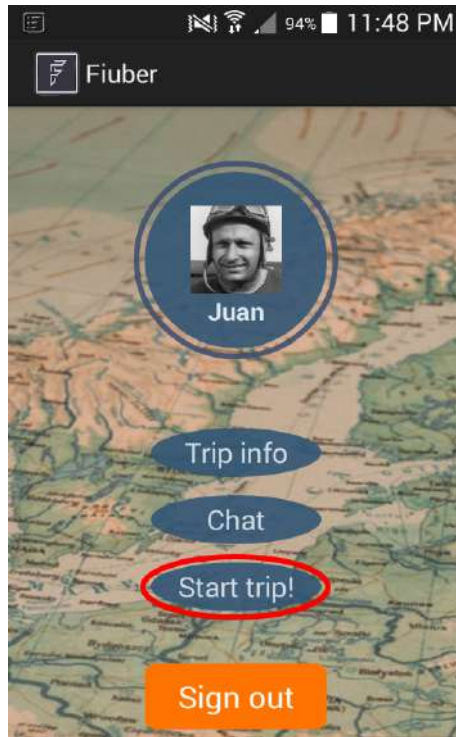

On the app main menu, pressing the “Chat” button will take you to the driver-passenger chat screen.

You can write and send messages to your passenger as long as the trip lasts.

Starting trip

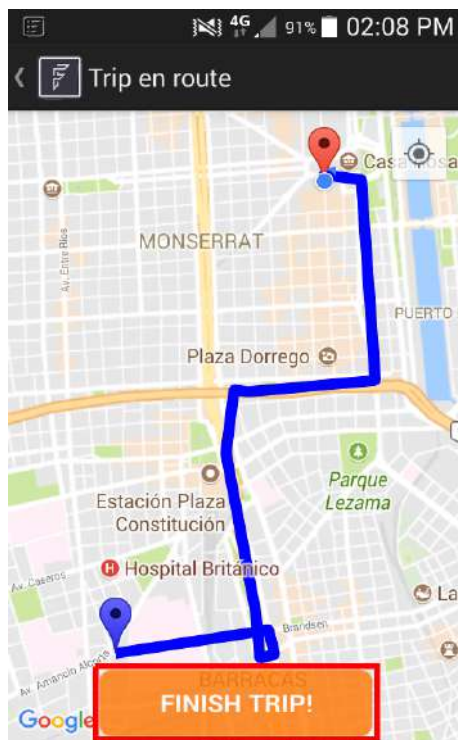

FIUBER fairness system requires for both you and your passenger to start the trip from the main menu. Once the passenger gets inside your car, you must press the "Start trip!" button in the main menu for the trip to start.

With the trip started, you must take the passenger to their picked destination. By choosing “My trip” on main menu, you can check the trip’s path and your current location.

Finishing trip

When you arrived at the designated location, you and your passenger must finish your trip the same way you started it.

On your trip screen, select “finish trip” for ending your trip with FIUBER.
After that, you can accept more trips the same way you did with this one.
